

APPAREL & LINEN SOLUTIONS CATALOG

NIXON
M E D I C A L
APPAREL & LINEN SERVICE SPECIALISTS

All About Service™
SINCE 1967

DEAR VALUED PARTNER,

In 1967, Murray Bernstein started Nixon Medical as a small dry-cleaning business in Chester, Pennsylvania. What began as a local operation has grown into something much larger, but what hasn't changed is our family's belief in treating people right and doing service the right way.

We know that running a healthcare facility carries a lot of responsibility, regulations, and patient expectations. Our job is to make things easier for you.

Inside this catalog, you'll find a curated selection of high-quality products backed by consistency, reliability, transparency, and care—because at Nixon Medical, it's **All About Service™**.

With appreciation,

Jason Bernstein
President, Nixon Medical

THE NIXON MEDICAL SERVICE DIFFERENCE™

As you explore this catalog, know that every product is backed by a service difference built exclusively for outpatient care.

-  **All-In Pricing**
Transparent pricing that protects your budget.
-  **Expert Inventory Management**
Right-fit inventory, driven by data and partnership.
-  **Anytime Access to Dedicated Route Service Representatives**
Knowledgeable RSRs who know you and your needs.
-  **Free Same-Day Deliveries**
Responsive delivery support for the unexpected.

Our service difference is supported by:

- ✔ High-Touch, Multi-Tiered Service Teams
- ✔ Easy Payment Solutions
- ✔ Predictable, No-Surprise Billing
- ✔ Inventory Par Levels with No Minimums
- ✔ HLAC-Accredited Outpatient Specialists
- ✔ Three Points of Service Review
- ✔ Safe, Contact-Free Service Approach

Product Availability, Guaranteed

Nixon Medical guarantees the availability of medical gowns and linens. If you report a product need, we will resolve the issue by the end of the next business day, or you will receive full credit on your invoice.

SERVICES

Nixon Medical's services do more than deliver. They're designed to simplify operations, safeguard compliance, and ensure your team always has what they need to provide excellent care. From hygienic laundry and expert inventory management to protective replacement programs and maintenance solutions, every service is thoughtfully built to keep your facility running smoothly and your staff focused on patients.

*This **service difference** is a promise backed by more than 55 years of experience and trusted by over 10,000 outpatient centers nationwide.*

EXPERT INVENTORY MANAGEMENT

Our Expert Inventory Management (EIM) program ensures consistent apparel and linen availability without the burden of managing it in-house. With smart barcoding, proactive reviews, and Route Service Representative support, we keep your inventory organized, accurate, and hassle-free.

No Capital Investment

A fully managed solution that eliminates equipment and maintenance costs.

Smart Tracking Technology

Every item is barcoded and tracked by wearer, size, and service cycle for total visibility.

Reliable Linen Management

Garments and linens are scanned in and out with each service to reduce loss.

Enhanced Productivity

Streamlined stocking and restocking free your staff to focus on patient care.

Support for On-Site Scrub Systems

For outpatient centers using on-site scrub dispensing systems like **ScrubTrak™** or **ScrubEx™**, Nixon Medical provides coordinated delivery and inventory management in alignment with your existing setup.

MEDICAL LAUNDRY SERVICE

Our HLAC-accredited Medical Laundry Service is designed specifically for outpatient care. Every garment and linen is hygienically cleaned, finished, and sealed under strict standards to ensure safety, consistency, and professional presentation.

Healthcare-Only Expertise

Exclusively serving outpatient facilities, not general commercial clients.

HLAC-Accredited Compliance

Every process meets or exceeds strict infection control standards.

Controlled, Clean Flow

Negative airflow, separation zones, and sealed packaging ensure hygienic handling.

Sustainable & Efficient

Our facilities conserve energy and water while maintaining industry-leading quality.

LOSS-DAMAGE PROTECTION

Our Loss-Damage Protection (LDP) Program covers everyday wear, tear, and loss so your budget stays predictable and your team always has what they need, without surprise replacement costs.

Plan for the Predictable

Everyday wear, tear, and loss, already factored into your costs.

Automated Replacements

Items are proactively replaced without inspections or paperwork.

Improved Cost Management

A consistent monthly rate keeps your budget steady without surprise spikes.

Enhanced Patient Experience

Fresh, professional garments and linens for total patient comfort.

SCRUBS

Nixon Medical's scrubs are made to perform and designed to last. More than uniforms, they shape how teams work and how patients experience care. Our scrub sets deliver the fit, comfort, and professionalism your staff deserves, backed by dependable service and the option for custom embroidery. And, with our Loss-Damage Protection Program, your practice is protected from the surprise costs of inevitable wear, tear, and scrub loss.

Bath Towel

NIXHCO0WH

Oversized terry towels designed for full-body drying and patient comfort, ideal after procedures, hygiene care, or physical therapy.

- 24" W x 48" L oversized dimensions for complete coverage
- Soft terry cloth texture for comfort and absorbency
- 100% cotton fabric durable through repeated laundering
- Highly absorbent for reliable drying performance
- Individually wrapped in protective plastic to ensure hygiene

Doctor Towel

BLUE: NIXDTBL | WHITE: NIXDTWH

Low-profile towels designed for absorbency without bulk, ideal for procedures, surface cleaning, and instrument handling.

- 15" W x 30" L doctor towel size
- Flat, non-terry design suited for procedural use
- Available in blue or white
- 100% cotton for softness and absorbency
- Individually wrapped in protective plastic to ensure hygiene

Green Surgical Towel

NIXDTGR

Low-lint, absorbent towels designed for procedural use, ideal for sterile prep, instrument handling, or post-procedure clean-up.

- 18" W x 33" L size supports clinical and procedural tasks
- Low-lint fabric reduces particle shedding
- 100% cotton construction for strength and absorbency
- Highly absorbent for effective fluid management
- Versatile use as a drape, cleaning towel, or sterilization wrap
- Individually wrapped in protective plastic to ensure hygiene

FLOOR MATS, MOPS & CURTAINS

Nixon Medical's floor mats, mops, and curtains are designed for the stringent demands of healthcare, helping reduce contamination, protect patients and staff, and extend the life of your facility's floors. From slip-resistant mats and versatile curtain solutions to antimicrobial and microfiber mop systems, our solutions are durable, hygienic, and professionally laundered for consistent safety and performance.

Custom Logo Mat

LOGO MAT SECTION

Fabric-faced mats customized with your name, logo, or message, combining professional branding with durable, dirt-trapping performance.

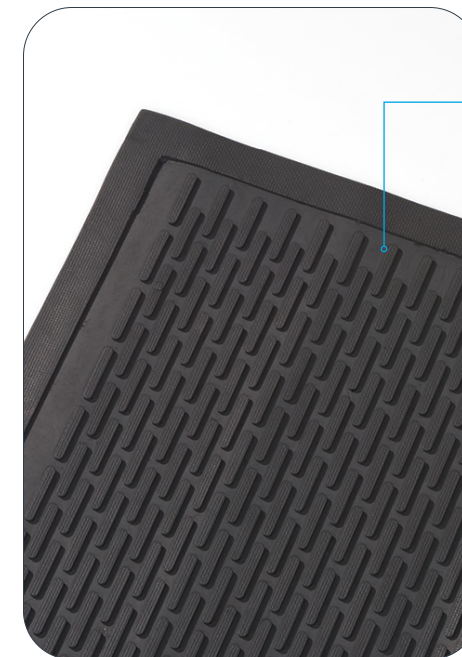

- Custom design options to feature logos, slogans, or mission statements
- Available in multiple sizes and colors to match facility needs
- Durable fabric-faced surface captures dirt and debris
- Commercial-grade backing for lasting performance
- Regularly laundered and serviced for consistent quality

Fabric-Faced Medical Mat

3' X 5': M1135 | 4' X 6': M1146 | 3' X 10': M11310

Absorbent, slip-resistant mats designed for high-traffic outpatient areas—trapping dirt and moisture to protect floors and improve safety.

- Dirt-trapping fabric surface reduces tracked-in soil
- Slip-resistant backing provides traction in slightly wet areas
- Protects floors in high-traffic spaces such as lobbies, exam rooms, and hallways
- Available sizes: 3' x 5', 4' x 6', and 3' x 10'
- Multiple color options available
- Professionally laundered and serviced for consistent performance

Scraper Medical Mat

M1135SS

Heavy-duty rubber mats with a cleated surface capture dirt and moisture at entry points, reducing slips, protecting floors, and minimizing tracked-in mess.

- Durable rubber construction built for indoor and outdoor use
- Cleated scraper surface traps dirt and moisture effectively
- Slip-resistant design supports safety in wet-weather conditions
- Ideal for entryways, vestibules, and loading zones
- Professionally cleaned and replaced on a regular schedule

Flow-Through Medical Mat

2' X 3': M1123FL | 3' X 5': M1135FL

Durable rubber mats with cleated surfaces and drain holes, designed for high-moisture areas to reduce slips, improve traction, and support safe footing.

- 100% nitrile rubber construction built for wet environments
- Available sizes: 2' x 3' and 3' x 5'
- Flow-through drain holes minimize standing water
- Slip-resistant, ergonomic design supports comfort and safety
- Antimicrobial protection helps reduce bacterial growth
- Beveled edges prevent tripping and allow smooth transitions
- Professionally cleaned and serviced for consistent performance

READY TO PLACE AN ORDER?

We're here to make it easy.

Whether you're a current partner looking to reorder or a new customer ready to get started, placing an order or requesting a sample is simple.

Need help deciding what's right for your facility?

Our team is happy to walk you through product selections, inventory planning, or customization options.

Antimicrobial Wet Mop System

NIXMP16WH

Blended-fiber wet mop with built-in antimicrobial protection. Engineered for absorbency, odor resistance, and daily infection prevention in outpatient care.

- Blended fiber construction for absorbency, odor control, and durability
- Built-in antimicrobial protection supports pathogen reduction
- Looped and banded design prevents tangling and improves coverage
- Compatible with standard hospital wet mop handles
- Professionally laundered, sealed, and delivered hygienically packaged

Microfiber Mop System

MED217620

Lightweight, lint-free mop system designed for precision cleaning in medical environments, capturing dirt, dust, and bacteria while using up to 95% less water and chemicals.

- Ultra-fine microfiber construction lifts and traps dirt, dust, and bacteria
- Polyester/polyamide blend provides high absorbency without residue
- Eco-friendly design reduces water and chemical usage by up to 95%
- Telescopic handle and swivel frame allow ergonomic, all-angle cleaning
- Professionally laundered, sealed, and hygienically packaged for clinical use

CARESHIELD® CUBICLE CURTAIN SOLUTIONS

Installed. Maintained. Hygienically Managed.

Our Cubicle Curtain Service offers a complete, modular solution designed to simplify facility operations, reduce infection risks, and eliminate the challenges of in-house curtain management. Professionally installed and replaced every six months, our curtains support compliance, enhance patient safety, and save staff valuable time. Reusable, customizable fabrics make it easy to maintain a polished, professional appearance while achieving long-term cost savings and peace of mind.

Full-Service Installation & Replacement

Our team handles professional delivery, installation, and change-outs entirely—no ladders, labor, or storage hassles are required.

Facility-Friendly Modular System

The snap-panel design allows for fast, safe, and consistent change-outs, reducing ladder time, labor, and downtime across your facility.

Infection-Control Assurance

Encourages regular laundering and aligns with CDC and AORN guidance to reduce contamination risks and support Infection Prevention initiatives.

Fabric Options & Customization

Choose from various styles, colors, and antimicrobial finishes to match your facility's design and budget. Custom designs and designer fabric sourcing available.

Blue Moon 66" x 66"

NIXCURTBM66

Eight-bay system for organized, secure hanging storage

Laundry Locker ➔

Designed to contain and secure soiled laundry in any facility

Regular Hamper

NIXHAMPER

OSHA-compliant hamper with a steel X-brace frame—stable in use, foldable for storage, and designed for safe linen collection in outpatient facilities.

- Steel frame construction provides reliable support
- X-brace design balances stability with portability
- Collapsible for space-saving storage when not in use
- OSHA-compliant labeling for biohazard and infection control
- Sized to fit standard outpatient facility layouts

Premium Hamper

NIXPREMHAMP

Hands-free, OSHA-compliant hamper with a pedal-actuated lid and locking wheels, built for safe, hygienic, and mobile linen collection in outpatient facilities.

- Pedal-actuated lid allows hands-free operation
- Stable steel frame for long-term performance
- Crack-resistant ABS lid withstands repeated use and disinfecting
- Locking, multi-directional wheels provide mobility and secure placement
- OSHA-compliant labeling for standardized soiled linen collection

Hanger Rack

NIXHANGER

Heavy-duty wire rack designed for high-volume hanger collection, keeping laundry areas organized, efficient, and ready for pickup.

- Durable wire construction built for long-term use
- High-capacity design holds hundreds of hangers
- Tangle-free storage improves workflow and recycling
- Compact footprint fits neatly in service areas
- No-charge hanger recycling included with service

Stationary Garment Rail

3': NIXRAILST3 | 5': NIXRAILST6

Freestanding garment rail available in multiple sizes, providing stable, flexible storage for hanging garments in outpatient facilities.

- Sturdy, freestanding design supports consistent use
- Available in 3' and 5' lengths
- Easy to relocate as storage needs change
- Compact footprint fits hallways, locker rooms, or entrances
- Holds a high volume of garments for organized access

Wire Shelving Solutions

18": MEDSHELF18 | 24": MEDSHELF24

Freestanding wire shelving unit measuring 18"D x 36"W x 63"H, designed to keep scrubs, linens, and supplies neatly organized and accessible in outpatient facilities.

- Durable, stationary design supports daily use
- Spacious shelves maximize storage capacity
- Helps reduce clutter and improve efficiency
- Saves time and money by streamlining access to supplies
- Compact footprint fits storage rooms, closets, or clinical areas

Folded Garment Locker

NIXLOC FOLD10

Compact locker system with 10 secure compartments, ideal for folded garment storage in outpatient facilities with limited space.

- 10 secure compartments maximize storage efficiency
- Space-saving vertical design fits hallways, locker rooms, or storage areas
- Cam lock system restricts access to authorized users
- Durable powder coat finish resists chips, scratches, and wear
- Dimensions: 16.5" W x 16" D x 77.5" H

Hanging Garment Locker

NIXLOC COMP8

Locker system with eight secure compartments and ergonomic hanging bars, built to keep garments neat, protected, and accessible in outpatient facilities.

- 8 individual compartments for organized garment storage
- Ergonomic hanging bar for smooth, strain-free use
- Cam lock system restricts access to authorized users
- Durable powder coat finish withstands daily wear and cleaning
- Dimensions: 30 19/32" W x 21 7/16" D x 80 13/16" H

Laundry Locker

STANDARD: NIXLOC DRP
MAXI: NIXLOC MXDRP

Slim, secure cabinet designed to contain soiled garments, helping outpatient facilities maintain a clean, professional environment until pickup.

- Cam lock system restricts access to authorized personnel
- Durable powder coat finish withstands daily use and cleaning
- Sized for changing rooms, hallways, or staff washrooms
- Standard dimensions: 16.5" W x 16" D x 77.5" H
- Maxi dimensions: 24" W x 21.5" D x 81" H
