Ways We Elevate the Outpatient Experience

Partnering with Nixon Medical will enhance the professionalism and comfort of your outpatient environment for patients and staff alike.

Seamless Care

Our inventory management solutions and RSRs ensure your clinicians and staff always have the medical apparel and linen supplies they need to deliver continuous patient care.

Professional Attire

Our reliable and quality-controlled delivery service ensures clinicians and staff are always donning clean and professional apparel that elevates the impression of your outpatient center.

Comfortable Patients

Unlike disposable paper apparel, our extensive product lines of linen patient apparel, including plush robes and gowns, gives patients a sense of comfort and dignity while in your office.

Sustainable Advantage

Our commitment to reusable, linen products over single-use, paper products, gives your center a sustainable advantage that can encourage patients to choose your center over others.

Organized Office

Our RSRs professionally stock and stage your supplies—identifying storage solutions and hanging and folding apparel—helping you present a neat and clean office to patients.

Welcoming Touches

Our custom embroidery service can add your center's logo and staff names to floor mats, lab coats, scrubs, and more, welcoming and personalizing the patient experience.
